Where do I want to be at the end of 2012?

Complete the Lie calculator to include associators,
etc.?

Write a μ -calculus paper?

More μ -calculus research: How does it relate
to KV? To BF? Co-invariants?
with James?
Why CW?

V-research in the abstract? with Karnez?

2D V-research?

β -calculus research? Categorify β -calculus?

set up a tangle atlas?
