

Katlas after-upgrade mods

July-02-13
11:49 AM

- Comment out a few lines at `/etc/apache2/mods-available/php5.conf`
- Attempted to reconfigure `phpmyadmin`.
- In `dbnvp/show-2012.php` made the default for `usewiki` to be `false`.
- Copied web to `web1` and `/www/html/w` to `~/w1`.
