"Integration is on Lagrangian submanifolds"

Q. What is  $A^{BF}$ ? How is it isomorphic to  $A^{kgh}$ ?

Ans. First,  $A^{kgh} = A^W \left( \begin{matrix} \uparrow \\ I_T \uparrow H \end{matrix} \right)$   
 $A^{BF}$ :

I still need to write the relations for  $A^{BF}$ !
