

Questions for Huan

November-09-14 8:10 PM

1. Is BDGGHN's Alexander at $s=1$ an MVA?
2. Is there interest in an $s=1$ BDGGHN invariant for long v -knots?
3. What's the non $s=1$ weight system of the BDGGHN invariant?
4. At $q=s$, OC holds for BDGGHN. But I thought I understood OC!
