

Solomon's talk

March-02-15 11:11 AM

Comments:

1. PDF of your talk should have been online, with the URL on the board, not in the PDF itself. (Or better, there should have been a handout).

Power Point (and isomorphic copies) is a crime against human nature!

I wonder if Earth Movers Distance ^{EMD} is related to Kashiwara-Vergne

Is this related to resistor networks?

If not, why is EMD better than the RND?

You were missing "Why we care about EMD in CG".
