

Dealing with selfies

July-20-15 11:55 PM

All work in \mathcal{faa} / less complicated.

using GT, see on way:

$$\begin{array}{c}
 \left[\begin{array}{c} \nearrow \\ \searrow \end{array} \right] = \left[\begin{array}{c} \nearrow \\ \rightarrow \end{array} \right] + \left[\begin{array}{c} \rightarrow \\ \searrow \end{array} \right] \\
 \text{not } \mathcal{faa} \quad \text{not } \mathcal{faa}
 \end{array}$$

remains in \mathcal{faa}
