

Unitarity, again

Saturday, September 5, 2015 9:20 AM

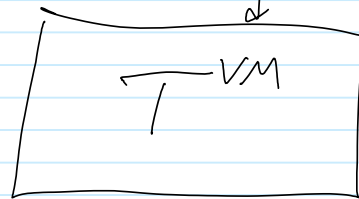

My "generic tangle"

("lazy mirror"²
 every ring stays⁰ in
 place, no need to
 redraw anything)

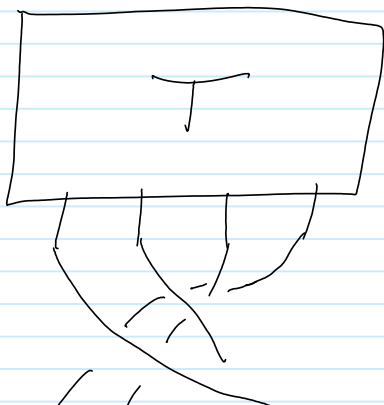

=

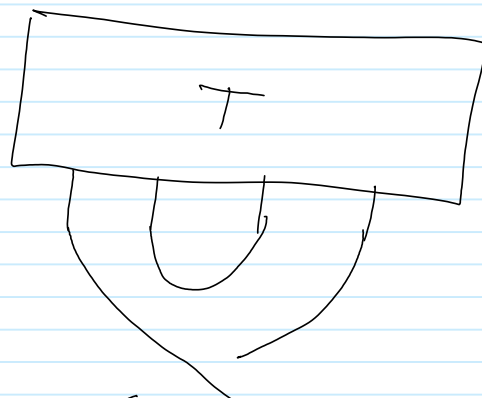

"vertical mirror"

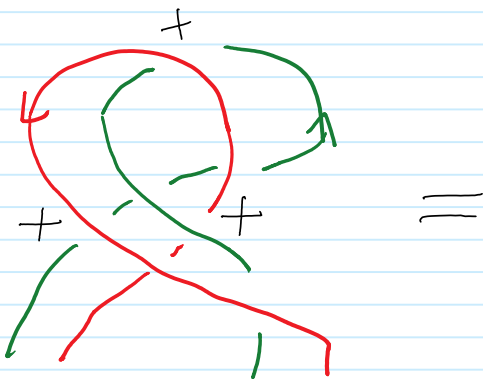

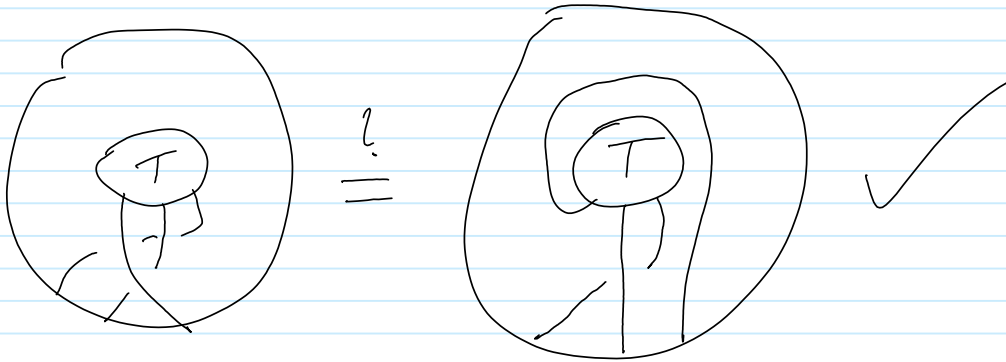

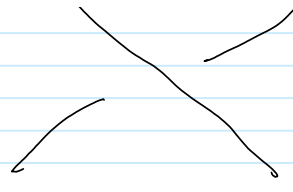

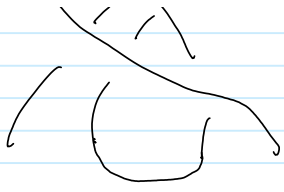

⇒

I must understand
 the behaviour of γ
 under vertical mirrors.
 "lazy mirrors"

~

Gorside

"on u-tangles, $\Gamma * G = \text{Alt} - \Gamma$ "

hard mirror
