1. "It's not a joke" -> "the subject is real!".
2. Too fast!
3. "Both reps carry the same information" -> "both reps carry enough information".
4. I don't like the captions at the start of 010.mp4. I'm not sure if you're not mixing "knot" with "strand" or "lace", and anyway, I don't think it's the standard knot we use to tie our shoes. I'm not sure what you mean by "capture the knot".
5. In same, "why don't we want a strand to pass through itself"? Indeed why?
6. The colour coding at the beginning of 012.mp4 is not thermographic.
7. 012.mp4-0:45: "from our viewpoint" -> "on our viewpoint".
8. The knot in the beginning of 013.mp4 is slightly open.
9. 013.mp4-2:12: "proved" -> "proven".
10. 013.mp4-2:30 is a bit confusing because it suggests that you can actually remove crossings. Right after: "how a crossing looks like" -> "what a crossing looks like".
11. 015.mp4 is too fast. In general, 1-knots you can animate so they move faster than 2-knots, because 2-knots are less familiar and there's more to look at and digest.
12. 131.avi has subtitles but no video.
