

Deforming stitches

March 28, 2017 12:07 PM

As ϵ increases, perhaps I should keep R fixed yet deform the stitching operation?

$$\begin{array}{c} | \\ \hline \rightarrow | \rightarrow | \\ \hline | \end{array} = \begin{array}{c} | \\ \hline \rightarrow | \rightarrow | \\ \hline | \end{array} \neq \begin{array}{c} | \\ \hline \rightarrow | \rightarrow | \\ \hline | \end{array} \neq \begin{array}{c} | \\ \hline \rightarrow | \rightarrow | \\ \hline | \end{array}$$
