

Minsky@FI: Bottlenecks and Counterexamples in Weil-Peterson Geometry

October 25, 2018 9:29 AM

Joint w/ Modami

S : Hyperbolic surface

$T(S)$ - Teichmüller space w/ Weil-Peterson metric

$$M_g(S) = T(S) / \text{Mod}(S)$$

↖ mapping class group.

WP Geodesic flow - combinatorial aspects

[Burns, Masur-Wilkinson: Ergodic, mixing]
