

## To do

July-20-11  
1:48 PM

- Global "singular vertices" -> "foam vertices"? Include a foam picture from John Sullivan?

I hope I will get the chance at some point to add  
a section making the point  
"category theory is over-rated".

- Fix exercise 2.13.

- Add the locality relation alongside 6T, around section 2.3.
