

**LIST OF EDITS FOR “FINITE TYPE INVARIANTS OF W-KNOTTED OBJECTS
II: TANGLES, FOAMS AND THE KASHIWARA-VERGNE PROBLEM”**

DROR BAR-NATAN AND ZSUZSANNA DANCZO

Below is a response to the referee’s remaining questions and a list of corresponding edits in the paper.

(3): We had difficulty understanding the referee’s comment, so we went back and re-read what we wrote. We believe it was right though perhaps not sufficiently detailed to be easily understandable. So we re-organized parts of section 3.1 (with minor modifications also to section 2.4) and added some detail. We hope the current version is clearer.

(5): That is fair; we have omitted these definitions.

Other: We have noticed that the contact information for one of the authors was out of date, we have corrected it.
