I'm in quarantine, but I cheated. Well, not really, because I didn't go inside anywhere and I didn't come close to anyone at any point.

<p>I haven't biked for more than a month, so I picked a very easy ride. I actually had it in mind for a long time - I must have driven across the Holland Marsh about a zillion times, going on Highway 400. I always wanted to explore more, and I finally did. It is lovely! It really does look like a bit of Holland transported into Ontario. And I started very early, so the light was great and the birds were singing.
