With Roland . A 1.5km ride to the train station, then a train to Leeuwarden, then a 29.2km ride to Earnewald in the De Alde Feanen National Park (me riding < a href = ./Equipment/Bromp/index . html >

Bromp and Roland riding his green Brompton), then the rental of two kayaks, then a 13.1 paddle to Grou (within, a 0.5km walk to say hello to some windmills), then a 2km walk and lunch in Grou, then a 9.6km paddle back to Earnewald (with a stop for ice cream towards the end), then a 16km ride to Drachten, then a bus back to Groningen, and then another 1.5km ride back to my room . In total, 48.2km of biking, 22.7km of paddling, 2.5km of walking, 9 windmills, one short ferry ride, and a lovely day!
